Art Unit: 1644

1. Claims 36-68 are under consideration. Claims 1-35 have been cancelled.

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 36-50,53,54 drawn to a tumor vaccine

Group II, claim(s) 51,52 drawn to cytokine transfected cells

Group III, claim(s) 55-65 drawn to a method of making a tumor vaccine

Group IV, claim(s) 66,68 drawn to a method of making a fibroblast derived tumor vaccine

Group V, claim(s) 67 drawn to a method of making a dendritic cell derived tumor vaccine

3. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons.

The putative special technical feature linking groups I-V appears to be the tumor vaccine of invention I. However, said tumor vaccine was known in the art (see prior art disclosed in PCT Search Report filed with the instant application). Therefore, the technical feature linking the inventions of Groups I-V does not constitute a special technical feature as defined by PCT rule 13.2, as it does not define a contribution over the prior art.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any

Art Unit: 1644

amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

6. Papers related to this application may be submitted to Group 1600 by facsimile transmission. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). Papers should be faxed to Group 1600 at (703) 305-3014.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Ron Schwadron whose telephone number is (703) 308-4680.
